1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	De	scription, Pages					
	1-2	0	as originally filed				
	Cla						
		ims, Numbers					
	1-1		as originally filed				
	Dra	wings, Sheets					
	1/3-	3/3	as originally filed				
2. With regard to the language , all the elements marked above were available or furnished to this Auti language in which the international application was filed, unless otherwise indicated under this item.							
	The	ese elements were av	vailable or furnished to this Authority in the following language: , which is:				
		the language of a tra	anslation furnished for the purposes of the international search (under Rule 23.1(b)).				
		the language of pub	lication of the international application (under Rule 48.3(b)).				
		the language of a tra Rule 55.2 and/or 55.	anslation furnished for the purposes of international preliminary examination (under .3).				
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:							
		contained in the inte	rnational application in written form.				
		filed together with th	e international application in computer readable form.				
☐ furnished subsequently to this Authority in written form.							
		furnished subsequer	ntly to this Authority in computer readable form.				
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.					
		he information recorded in computer readable form is identical to the written sequence ished.					
4.	The amendments have resulted in the cancellation of:						
		the description,	pages:				
		the claims,	Nos.:				
		the drawings,	sheets:

Section V

- None of the available prior art documents reveals or suggests a method as 1) claimed in claim 1. Further, it is plausible that using this method, flash gas can be detected in a simple and reliable manner.
 - Hence, claim 1 meets the requirements of Articles 33(2) and (3) PCT.
- 2) Independent apparatus claim 12 concerns an apparatus which is suitable for carrying out the method of claim 1. This apparatus is also not revealed or suggested by the available prior art and therefore also meets the requirements of Articles 33(2) and (3) PCT.
- 3) Dependent method claims 2 to 11 and dependent apparatus claims 13 to 17 concern further developments of the inventive idea of independent claims 1 and 12 respectively. These claims also meet the requirements of Articles 33(2) and (3) PCT for the reasons given for claims 1 and 12.
- 4) The industrial applicability of the invention is obvious.
